

TN409.00 General

(a) This document establishes Natural Resources Conservation Service (NRCS) policy for providing conservation planning assistance to clients in Tennessee.

(c) The NRCS planning process and standards as outlined in the NATIONAL PLANNING PROCEDURES HANDBOOK (NPPH), web site http://policy.nrcs.usda.gov/scripts/lpsiis.dll/H/H_180_600_1.htm will be used for all conservation planning. Conservation planning data will be documented and developed electronically using the latest available version of Customer Service Toolkit. In addition to this electronic format, hard copies of data may be made available as required to meet the needs of our clients. Other agency approved software and software components may be used as appropriate to supplement Toolkit conservation plans and planning decisions such as the FIELD program, Soil Data Viewer, various engineering programs, and other approved programs.
